Thank you for your purchase.
Here's the rest of the program.

The book you just bought is one part of a step-by-step writing and grammar system I wrote in my own classroom and tested with my own students. After years of refinement, all of these books work together in a complete, highly efficient writing program — same approach, same plain language, same practical steps you can teach tomorrow morning, whether you teach thirty students or three.

THE COMPLETE SYSTEM — THREE PARTS

1

THE WRITING PROGRAM

The Complete Writing Program

Teach the five aspects of great writing at any grade level — the writing process, descriptive writing, vocabulary development, sentence variety, and overall style. Letter writing and report writing are covered as well. Includes the peer assessment component, so students evaluate each other's writing, and you stop taking home every paper. Follow it as a full year plan or drop it into what you already use.

Grades 3 and up · eBook & softcover · Also available in bundles

2

THE SKILL BOOKS — THEY BUILD ON EACH OTHER

How To Teach the Paragraph — Teach your students the **One Simple Trick** that helps them master the paragraph. Grades 3+.

How To Teach the Five-Paragraph Essay — Expand the One Simple Trick into a full essay in a single lesson, then add strong introductions, conclusions, and transitions. Grades 4–12.

How To Teach the Research Report — Students who know the One Simple Trick master the report quickly. This book teaches it too, so it works either way. Grades 5–12.

Writing Tricks Plus — Teach students a dozen ways to improve sentence structure and make their writing worth reading. Grades 3–12. Student consumables \$14 — minimum order of 3.

THE GRAMMAR PROGRAM

Standards Based Grammar

A grade-specific program that meets every grammar standard for your grade level. Over a hundred short, ready-to-teach lessons introduce each skill, then journal assignments force students to prove they've acquired each skill. Parent checklists show families where their child stands; teacher checklists track mastery across the class.

Teacher editions for grades 3, 4, 5, and 6 · Grades 7 & 8 edition · Homeschool edition · **Student consumables \$14 — minimum order of 3**

About This Book

For years I've been looking for a grammar program that teaches the dozens of basic grammar rules my upper elementary school students need to know. Their lack of basic grammar skills left me with the feeling that they had to be seeing the rules I was teaching for the very first time. The blank stares I received when mentioning words like "possessive nouns" and "subject-verb agreement" had to mean that the teachers from my students' previous grades had never taught them. However, I soon realized, when reviewing grammar concepts only months after teaching them, I would receive those same blank stares again.

So what's the problem? Obviously I did not teach the concepts correctly, right? Maybe. I can say that many of my students would receive an A on most of my grammar tests. They could identify grammar concepts in worksheets and in Daily Oral Language. Unfortunately, these skills were not being transferred into their written and spoken language.

As a result, I have modified my grammar program every year of my teaching career for fourteen years. I have looked for a comprehensive grammar program that would help all of my students apply and retain the grammar concepts they need in order to speak and write effectively. I've used grammar programs provided by literature companies. I've spent hundreds of dollars on workbooks that teach specific concepts. I've spent hours creating worksheets to help my students master the English language. Despite all of this, I remained frustrated with the lack of progress my students were making in grammar.

What I wanted was a program that would help identify every skill my students should know by the end of the year. Also, I wanted to identify the skills my students should have mastered by the time they arrived in my class. Finally, I wanted to know what skills my students would be required to know in future grades so that I could introduce them to these concepts. It has become painfully clear that grammar is so complex that many students need a systematic program that allows them to master certain skills while preparing them for mastery of other skills. For students to master basic grammar, teachers of many grade levels will need to work together and create a plan.

The purpose of this book is to give teachers the plan they need to achieve the goals listed above. Grammar standards from grades three through eight (from the National Language Arts Framework) have been collected in an attempt to identify the basic skills our students need to master. In addition, extensive research has been done in an effort to identify specific lessons that will help build students' communication skills. As a result, not only does this book meet the national language arts standards for grammar, it goes far beyond.

Another benefit of this book is that it is systematic. It begins with the most basic of concepts and builds as you move through the units. Lower grades, or classes with students who are behind, can spend more time on certain concepts, while the upper grades can move more rapidly to get to the more difficult concepts. Furthermore, teachers can feel confident that the students are mastering the skills at their grade level while preparing them for instruction in the future.

You now have a fantastic system that will help build your students' language skills. With just fifteen to twenty minutes a day, students of all levels will grasp English like they never have before. English language learners, students with learning difficulties, and children who live in homes where English is not modeled correctly will benefit tremendously as they are taught English one step at a time. This program gives them a clear focus for the attainment of basic grammar. This is the ambition and the goal of Standards Based Grammar.

Using This Book

Below is a list of the special features in this book. If this is your primary grammar program, here is the basic procedure for the program:

- A. Review each worksheet prior to the lesson. Focus on getting the students to understand the vocabulary. Begin each lesson by reviewing the vocabulary from the previous lesson.
- B. Make sure students complete every journal extension. This helps students practice each grammar skill within the context of actual writing situations.
- C. Do test review worksheets to prepare for each test.
- D. Give the unit assessments. Correcting these can be time consuming. Many teachers correct these as a class.
- E. Decide what you consider “Mastery”. Record “Mastery” or “Non-Mastery” on the Parent Checklist for each student.
- F. Transfer information from Parent Checklists to the students’ Student Checklist. Your students can now take home their test and Parent Checklist.
- G. Optional: Check off each skill taught on the Teacher Checklist. This will help you keep track of topics covered.

Features:

Grammar Standards Teacher Checklist

1. The Teacher Checklist allows the teacher to check off each standard after it has been taught. This is especially helpful if you do not teach the chapters in order or if you are using this book as a supplement. By doing this you are assured to cover every standard required for your grade level.
2. After each assessment you can keep a list of students who have “Mastery” and “Non-Mastery” of each standard. This will give you an idea of which standards need greater attention throughout the year. Additionally, this will provide wonderful feedback for future teachers. By making copies of this worksheet at the end of the year for future teachers, they will be well aware of the standards that give their new students problems.

Student Worksheets

1. Many concepts are taught on the first worksheet of each standard. The worksheets that follow allow practice in order to achieve mastery. However, it is crucial that you prepare ahead of time to deliver appropriate instruction of each concept.
2. The lessons on the worksheets are meant to be a springboard for your discussions about the grammar concepts. Most lessons can be reviewed quickly and taught with little preparation.

Features (Continued)

3. It is important that students have a chance to practice at home. Many worksheets have enough practice activities for the students to complete half at school and half as homework.
4. More worksheets may be required to achieve your goal of mastery. However, at least this program allows you to systematically identify when to teach a concept and when more help is required.
5. If more practice worksheets are needed, many teachers use the worksheets from their district's language arts program. Organize these worksheets based on where they are found in Standards Based Grammar.

Extensions

1. Many worksheets have “extensions” at the bottom. These are journal activities that help reinforce the concepts within the context of writing. This is an excellent way to help solidify the grammatical skills in the minds of the students.
2. In most cases, there is an extension on every other worksheet. Use the extension during your students' journal time, give it as homework, or complete it during class as an additional grammar activity.

Tests and Assessments

1. Every skill in each unit is assessed. Use the tests to keep track of student progress.
2. You can use whatever scale you feel is appropriate to grade the tests. For the difficult units, it is recommended that the standard grading scale be relaxed. One suggestion is to make the highest score an A, while the other students' grades are lowered from there.

Parent Checklists

1. This is a way for you to keep the parents involved in the progress of their child. After each test, check off the skills that have been mastered and the skills that have not been mastered. Send it home with the students.
2. This gives the parents the opportunity to practice these skills at home with their child. It may be helpful to direct the parents to a local teacher supply store where workbooks are available. Also, you can prepare packets of materials to send home for further practice.

Features (Continued)

3. In many cases, “Non-Mastery” may be checked for many or all of the skills taught. Parents need to understand that the goal of this program is true mastery. A student may understand a concept in a general way but still need more practice before using the skill correctly in speaking and writing. Therefore, some parents may be concerned when they see several skills marked “Non-Mastery.” It may be helpful to include the student’s test grade on the checklist to ease that concern. For example, a C on the test can show that the child is making progress even though several skills still need more practice.

Possessive Nouns

When a noun owns, or possesses, another item, it is called a possessive noun.

Examples: John owns a book = John's book The toys own a box = toys' box

Notice the apostrophe (') on John's book and the (s') on toys' box.

The apostrophe (') helps the noun show ownership.

Singular Nouns: Add ('s) to make the possessive. Rewrite the entire phrase below.

1. John 's book

4. door____ handle

Pronouns #6

Name: _____

I. Directions: Circle all of the pronouns in the story below. Can you find all 31?

The children had a great time at camp. First, they got off the bus and found their cabin. It was very nice. Then, the counselor said, “I want you to put your clothes on hangers then put them in the closet.” He then gave them a ticket to get lunch. Later, the teacher took her students on a nature walk. When they returned, the staff showed them how to make crafts. One student asked the head counselor, “Can we take them home with us?” He said that we could take them home and

Comma Rules
Dates
#1

Name: _____

What day were you born? If you say, “I was born on the 11th,” you have left out an important piece of information - the month! Therefore, when you tell what day something happens, you need to include the month.

Rule #1: Day, Year - January 1, 2028 June 30, 1775

* Do not put a comma
after the month if no January 2028 June 1775
day is used.

Directions: Place commas where they are needed. Next, rewrite the day and year on the line below. * Watch out for months without a day.

A. March 3 2028 B. October 2007 C. December 25 2000

March 3, 2028 October 2007 _____

D. January 1 2010 E. April 8 1841 F. May 2015

Adjectives #1

Rule #5: Adjectives

When you put more than one adjective in front of a noun, you need to put **commas (,)** to separate the list of adjectives.

Examples:

1. There was a soft, cute, furry puppy in the window of the store.
2. I love to eat smooth, creamy peanut butter.

Look at Example #2. What is the difference between putting a comma in “Items in a List” and “Adjectives”?

Answer: There need to be three (3) items in a list before you can use commas. However, you need to place a comma even if there are only two adjectives before a noun. Also, there is no “and.”

Directions: Put **commas (,)** between the adjectives. Use a crayon to highlight the adjectives and the words they describe.

1. There were many bright colorful lights around the tree.
2. The strong brave workers saved the girl from the burning building.
3. We walked into the room and saw short busy elves making toys.

Subjects #1

Name: _____

Subject: The who or what of the sentence.

To find the subject of any sentence, ask yourself, “What is the who or what of the sentence?”

Example: **The bird flew away.**

Who or what is this sentence about? Bird

When the cat came around, the bird flew away.

Is the subject cat or bird? Remember, this sentence is still about the bird. It is about what the bird did when the cat came around. Therefore, the subject is still “bird”.
